**March Healthcare Development Announces Community Medical Office Building and Ambulatory Surgery Center with Moreno Valley Physicians Group, Riverside Medical Clinic, St. Bernardine Medical Center, and Catholic Healthcare West**

**July 20, 2010, Riverside, CA.** March Healthcare Development (MHD) Founder and Managing Partner, Don Ecker, and MHD Director of Hospital & Physician Ventures, Phil Dalton, are pleased to announce the Moreno Valley Physician's Group (MVPG), led by Dr. Baktiar Ahmad, will join Riverside Medical Clinic, St. Bernardine Medical Center, and Catholic Healthcare West on the March LifeCare Campus.

The Community Medical Office Building and Ambulatory Surgery Center, of which the MVPG will be a part of, will blend into a medical city of over 200 acres that incorporates all health care services on an easily accessible campus. The newest technologies, along with a patient and physician friendly hospital design, will allow patients and their families to be treated with privacy, dignity, and respect.

The Moreno Valley Physician's Group, consisting of 102 physicians that currently practice at Moreno Valley Community Hospital, joins the growing number of organizations that will collaborate to develop an innovative health care delivery model to enable coordinated physician and hospital care that meets health care reform goals—including St. Bernardine Medical Center, Catholic Healthcare West, and the Riverside Medical Clinic.

MHD is the developer of [March LifeCare](http://www.MarchLifeCare.com), America's first 'health and wellness' city, that will include a full range of health care services including education, prevention, wellness, research, training, diagnosis, treatment and recovery in a uniquely designed integrated medical campus.

Dr Ahmad has been a key supporter of March HealthCare Development (MHD) and was prominently featured in its community campaign last summer. At that time he stated, “The physicians of the Moreno Valley are eager to partner with MHD to develop a new state-of-the-art hospital. The area needs this medical campus to retain the physicians who have been serving this community with dedication for the last two decades, and to attract new physicians to the area.”
