

# Entirely new healthcare for the entire community.

## What makes the March HealthCare campus so unique:

- A new concept of health care retail that features coffee shops, banks, dry cleaning, retail shops, restaurants and even a five-star hotel,
- Patients have access to purchase medical devices and supplies and get prescriptions filled on campus,
- A Wellness Center and medical spa treatments.
- People will be able to relax in a peaceful setting between appointments or when visiting family members in the hospital

or the continuing care facilities,

- There will even be shuttle buses to move people around the campus,
- Gardens that not only buffer surrounding sound but encourage the healing process,
- Research, education, and training ranging from bio-medical research to training of health professionals,
- Community education programs on topics such as how to age healthfully, dealing with diabetes, obesity, and more,
- Continuum of services for seniors including independent and assisted living, skilled nursing,

ing, and Alzheimer's care.

## March healthcare also is comprehensive in its range of services, which will include:

- A 100-bed hospital, which can expand to 500 beds, that provides emergency care, intensive care, and a full range of inpatient services and outpatient services,
- Out-patient facilities with services such as physical therapy, diagnostic testing and imaging,
- Major Centers of Excellence expect to find on campus including heart, cancer, and

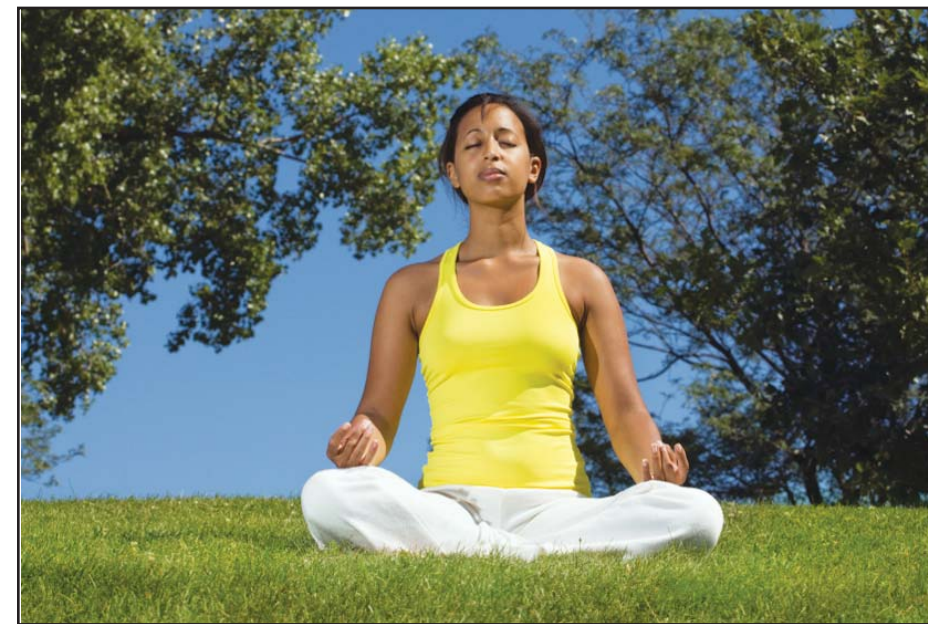

women and children's health, and orthopedic including hips, knees, spine, shoulders, and sports medicine,

- Rehabilitation services for stroke and head trauma,
- A technologically advanced ambulatory surgery center,
- At least two medical office buildings for up to 200 physicians and their related medical and professional staffs, and
- Urgent care centers.

## Visit the shops at March HealthCare

Healthcare retail will focus on the healthcare needs of consumers that go beyond traditional boundaries and include retail products and services, for both health and unhealthy consumers.

So don't be surprised to visit the shops at March HealthCare and be able to walk out with hypoallergenic lipsticks, cancer books, or drop off dry cleaning. March HealthCare's retail shops will offer a lot more than what you would normally expect to see in the hospital gift shop. In our retail shops expect to find anything from medical equipment and supply, pharmacy – optical, general nutrition, foot solutions, banking, dry cleaning, salons, restaurants and more. Offering this

convenience is an enormous benefit to patients, as well as caregivers, physicians, visitors and employees.

## Healing gardens provide a place to be alone with one's thoughts

Placing gardens in areas where people most need comfort and peace is March HealthCare's way to support the spiritual needs of its patients, visitors and staff. The gardens will be available for everyone, providing a place to be alone with one's thoughts, comforted by water trickling from a fountain or a place together with family members or friends for quiet conversation, it is a rejuvenating place for staff and physicians to enjoy lunch all fresco

with friends, or to reflect on the events of the day. The staff will use the healing gardens day and night to reduce stress. The healing gardens will be used to buffer the surrounding sounds with high-berms with trees on top similar to the Wynn Resort in Las Vegas.

## The team of experts to help you change your lifestyle

Wellness is the dynamic process of becoming aware of, taking responsibility for and making choices that directly contribute to one's well being and that of the common good. The team of experts at March HealthCare's Wellness Center will offer programs and services that don't just change your physical appearance – they will

change your lifestyle. Whether you're already healthy or trying to manage a health condition – you'll receive personalized, expert support and have access to unique programs like no other in the area. Features and services will include spa, massage, aromatherapy, fitness and yoga. Classes will demonstrate how to manage diabetes and eat health, and also how to combat obesity, smoking and lifestyle issues. The wellness center will be in the five star hotel.

## A continuum of care for seniors

As our aging population grows each day, a priority in phase one is our Continuing Care Retirement Community. Our pro-

gram will offer access to independent living, assisted living, skilled nursing facilities.

## Alzheimer's and hospice care.

If you are a senior who enjoys independent living you may choose to live in a single-family home, apartment or condominium within the complex knowing you can be transferred to an assisted living or skilled nursing facility on the same site when the time comes.

Entirely new healthcare for the entire community.
